

Canadian Glaucoma Society Société canadienne du glaucome

Objectives - Objectifs

Participants can increase

- knowledge about the microcirculation in glaucoma and the new surgical modalities available to treat glaucoma
- ability to choose the best techniques to measure IOP
- ability to identify the challenges in the delivery of quality eye care
- knowledge of the new modalities of functional assessment in glaucoma and what is the current maximal medical therapy in glaucoma
- knowledge of the best techniques for transfer of surgical skills in resident training in glaucoma

Les participants pourront :

- mieux connaître la microcirculation dans le glaucome ainsi que les nouvelles techniques chirurgicale pour la maladie,
- mieux choisir les meilleures techniques pour mesurer la PIO,
- mieux identifier les défis que pose la prestation des soins oculaires de qualité,
- mieux connaître les nouvelles modalités d'évaluation des fonctions ainsi que les meilleures thérapies médicales actuelles pour le glaucome,
- mieux connaître les meilleures techniques de transmission des compétences chirurgicales en glaucome aux résidents.

Friday, June 13 | 0930–1200 | Empress A/B
Vendredi 13 juin

Guest - Invité

- 1330 Efficacy and cost-effectiveness of glaucoma drugs for first line use
W.G. Hodge, J. Lachaine, I. Steffensen, C. Murray, D. Barnes, V. Foerester, T. Ducruet, S. Mensinkai
- 1337 Discussion
- 1340 What is the long term follow-up of appositional angle closure following laser peripheral iridotomy in Caucasian with normal pressure at diagnosis?
P. Blondeau, P.-C. Turcotte, L. Jaworski
- 1347 Discussion
- 1350 Predictors of an adverse intraocular pressure rise one month following selective laser trabeculoplasty: results from a randomized, controlled trial
H. Hollands, D. Jinapriya, D.S. Smallman, S.R. El-Defrawy, J. Cheung, J.P. Farmer, M. D'Souza, R.J. Campbell
- 1357 Discussion
- 1400 Evidence of a new uveolymphatic outflow pathway in human and sheep: implications for aqueous humor drainage and glaucoma
N. Gupta, M. Patel, T. Ly, E. Gümüs, M.G. Johnston, D. Armstrong, Y. Yücel
- 1407 Discussion
- 1410 Clinical trials comparing topical prostaglandins: potential industry bias
COS Award for Excellence in Ophthalmic Research Tie for 3rd Place
T.A. Alasbali, G.E. Trope, N. Geffen, M. Smith, J.G. Flanagan, Y.M. Buys
- 1417 Discussion
- 1420 Prostaglandin efficacy and safety study undertaken by race
C.M. Birt, Toronto Area Glaucoma Society
- 1427 Discussion
- 1430 Assessment of anterior chamber changes after laser peripheral iridotomy using anterior segment optical coherence tomography
J.C. Teichman, R. Lee, T.B. Klein, I.K. Ahmed
- 1437 Discussion
- 1440 Transconjunctival suturing of the scleral flap for hypotony maculopathy after trabeculectomy
L. Letarte, J.-L. Anctil, B. Des Marchais, A. Goyette, C. Lajoie
- 1447 Discussion
- 1450 Anti-inflammatory treatments following selective laser trabeculoplasty: a randomized, placebo-controlled clinical trial
D. Jinapriya, D.S. Smallman, M. D'Souza, H. Hollands, S.R. El-Defrawy, J.P. Farmer, J. Cheung, R.J. Campbell
- 1457 Discussion
