

Cataract Surgery Controversies

Controverses sur la chirurgie de la cataracte

Saturday, June 14 | 1530–1700 | Frontenac A/B
 Samedi 14 juin

Objectives - Objectifs

Participants can increase

- recognition of ways of reducing PCO including surgical techniques and IOL designs
- ability to identify the key issues in the management of cataract in the glaucoma patient

Les participants pourront :

- connaître davantage les façons de réduire l'OCP, y compris les techniques chirurgicales et le design de la LIO,
- mieux identifier les questions clés dans le traitement de la cataracte chez le patient atteint de glaucome.

Guest - Invité

Steven H. Dewey, MD

Moderators - Animateurs

Lindsay Ong-Tone / Paul Rafuse
